

Correspondence

c) Email from resident regarding a potential community allotment on Willington Bridleway

---

Hi

Can I ask if anyone has suggested a use for the bridal way, I understand it is a public right of way, but wouldn't it be good if the lady to the left as you walk towards the river could be used as a community allotment. Fresh produce could be grown and given away to people in the village such as the elderly. I am sure that enough people would volunteer to help. I for one would as it runs by my house. At the moment all that happens is that it is somewhere that people walk their dogs and the land to the left is quite a substantial ply and would make a great addition to the village.

Regards
