Email from resident regarding Trent Avenue play area

Hi,

I've just been to the park near the school and wondered if you were the correct people, or if you knew who they were, to contact regarding updating the park. My 3 and half year-old son brutally honestly said he was bored of that park, and I can see why. The equipment there is pretty tired and there isn't really a great deal of choice, especially with one of the swings being out of use since the summer. The space there could cater for so much more and it just seems a waste of what could be a great park which could attract and entertain many more children with a bit of care and attention.

Thanks
